3 MARGIN AND DEPOSIT REQUIREMENTS

Client shall deposit with NOOR collateral or margin in such amounts that NOOR, in its sole discretion, may require. Margin requirements will vary dependent on the electronic trading system, products traded and value of deposit done by Client, i.e. the higher the deposit the higher margin will be applied by entering into transactions. Further, NOOR may change margin requirements at any time.

Client agrees to deposit by immediate wire transfer such additional margin when and as required by NOOR and will promptly meet all margin calls by such methods as NOOR in its sole discretion designates. NOOR may at any time proceed to liquidate Client's account in accordance with paragraph 9 below, and any failure by NOOR to enforce its rights hereunder shall not be deemed a waiver by NOOR to enforce its rights thereafter. No previous collateral or margin requirement by NOOR shall preclude NOOR from increasing that requirement without prior notice. Margin calls are conclusive and binding unless objected to immediately in writing. Client understands that a margin call may occur even in instances where

account positions are hedged, given spreads may widen as set forth in paragraph 6 herein, causing remaining margin to diminish. Should remaining margin be insufficient to maintain open positions, the account may sustain a margin call, closing out any open positions in the account.

NOOR retains the right to limit the amount and/or total number of open positions that Client may acquire or maintain at NOOR. NOOR reserves the right to refuse to accept any order. NOOR does not guarantee any or all profits resulting from trading entered into the system(s) of NOOR, including but not limited to, profits realized during abnormal market conditions, extraordinary events or system malfunctions. NOOR shall not be responsible for any loss or damage caused, directly or indirectly, by any events, actions or omissions beyond the control of NOOR including, without limitation, loss or damage resulting, directly or indirectly, from government restrictions, war, strikes, labor

Client understands and agrees that should they receive off-market prices, for any reason, including but not limited to, delays, malfunctions or manual trading errors, NOOR shall retroactively cancel such trades and may elect to leave such trades canceled or reopen such trades at the correct market price, Client understands that orders received during instances of increased market volatility will be filled at the next best price available or the fair market value.

Client acknowledges that during instances of gapping markets, conditional orders, specifically stop losses, will be filled at the next available price following a gapping market. Pricing can gap past the price set forth in conditional orders, resulting in clients losing more funds than initially intended.

Client acknowledges that due to such risks, NOOR encourages clients to utilize market orders rather than conditional orders, as market orders are provided with a requote and allow Clients to accept or reject the new price.

Client agrees that NOOR is not responsible for any loses, including margin calls, which occur as a result of conditional orders being filled during a gapping market or orders being filled at certain prices as a result of greyed out pricing and/or limitations in market liquidity.

During volatile markets, such as news announcements, spreads may widen substantially in order to compensate for increased market volatility. RISK DISCLOSURE STATEMENT

This brief statement does not disclose all of the risks and other significant aspects of trading CFD's for Difference ("CFD"). In light of the risks, you should undertake such transactions only if you understand the nature of CFD's and the contractual relationships into which you are entering and the extent of your exposure to risk. Trading in CFD's may not be suitable for many members of the public. You should carefully consider whether trading CFD's is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances. In considering whether to trade CFD's, you should be aware of the following:

LEVERAGED CFD TRADING

1 EFFECT OF "LEVERAGE" OR "GEARING"

Transactions in CFD's and precious metals carry a high degree of risk. The amount of initial margin if applicable is small relative to the value of the Contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit; this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds you deposit with the firm to maintain your position. If the market moves against your position or margin levels are increased, you may be called upon to deposit substantial additional funds on short notice in order to maintain your position. If you fail to comply with a request for additional funds within the time prescribed, your position may be liquidated at a loss and you will be liable for any resulting deficit in your account.

2 RISK – REDUCING ORDERS OR STRATEGIES

The placing of certain orders (e.g. "stop-loss" orders, where permitted under local law, or "stop-limit" orders) that are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders. At times, it may also be difficult or impossible to liquidate a position without incurring substantial losses. Strategies using combinations of positions, such as "spread" and "straddle" positions, may be as risky as taking simple "long" or "short" positions.

3 SUSPENSION OR RESTRICTION OF TRADING AND PRICING RELATIONSHIPS

Market conditions (e.g. liquidity) and/or the operation of the rules of certain markets (e.g.

The suspension of trading in any contract or contract month because of price limits, government intervention or reasons beyond the counterparty's control) may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions.

4 DEPOSITED CASH AND PROPERTY

You should familiarize yourself with the protections accorded money or other property you deposit for the trading of CFD's, particularly in the event of your counterparty's insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property that had been Specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall.

5 COMMISSION AND OTHER CHARGES

Before you begin to trade, you should obtain a clear explanation of all commission, fees, markups, markdowns and other charges for which you will be responsible. The charges will affect your net profit (if any) or increase your loss.

6 PRICE RISKS

The profit or loss in transactions in CFD's will be affected by fluctuations in price.

7 PRINCIPAL'S MARKET

Financial instruments offered by Noor capital are traded in the over-the-counter markets. Noor Capital PSC ("NOOR") is a dealer/broker in CFD's and, as such, may be a counterparty to your transactions. You will therefore transact at prices established by NOOR. Even though

NOOR's quotations and prices are assisted by many computer-based component systems, its quotations and prices may vary due to market liquidity and conditions may not be as favorable as those of other dealers. NOOR's trading facilities are supported by computer-based component systems for the order-routing, execution or matching of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses is subject to limits on liability set forth in the NOOR Client Agreement and the Online Services and Electronic Trading Agreement and the agreements of other dealers, banks or financial institutions which may at times act as your counterparty.

8 ELECTRONIC TRADING

Trading on an electronic trading system may differ not only from trading in the open outcry market, but also from trading on other electronic trading systems. If you undertake

Transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

9 OFF – EXCHANGE TRANSACTIONS

In CFD transactions, firms are not restricted in effecting off-exchange transactions. Noor Capital will generally act as your counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk of a CFD position. For these reasons, these transactions may involve increased risks. Before you undertake CFD transactions, you should familiarize yourself with applicable rules and attendant risks and the policies, procedures and agreements of the counterparty and attendant risks.
